

8:30 am BREAKFAST

*Virtual presentation

Session I - Chair: Maurizio Pellecchia

9:00 am Robert Spitale (Irvine) Greeting

9:05 am Jordan Kovacev (DDC, Los Angeles) *Introduction to the DDC*

9:20 am Grant MacGregor* (Irvine) *Transgenic Mouse Facility*

9:35 am Jeremiah Momper* (San Diego) *DMPK Resource*

9:50 am Gerhard Bauer* (Davis) *GMP Facility*

10:05 am Mike Luther (Astellas) *Innovation and Astellas – Areas of Focus for Future Partnering*

10:20 am BREAK

Session II - Chair: Jason Gestwicki

10:50 am Jeff Neitz* (San Francisco) *Med Chem Service*

11:05 am Robert Damoiseaux (DDC, Los Angeles) *UC Core and the MSSR*

11:20am Julia Schaletzky (DDC, Berkeley) *Drug Discovery Center*

11:35 am Brian Paegel (Irvine) *Activity-Based and Cellular DNA-Encoded Library Technology: Democratizing Drug Discovery and Defeating Druggability*

12:00 pm LUNCH and posters

Session III - Chair: Michael Gilson

1:00 pm Jiayu Liao (Riverside) *Developing Quantitative FRET Assays to Identify and Target Essential Host SUMOylation Pathway of the Influenza Virus Life Cycle*

1:25 pm Alan Saltiel (San Diego) *Discovery of TBK1/IKKepsilon Inhibitors for Cardio-Metabolic Diseases*

1:50 pm Orian Shirihai (Los Angeles) *Targeting Unique Populations of Mitochondria and Their Interactions with Other Organelles using Microscopy Screens*

2:15 pm Matt Jacobson (San Francisco) *Designing Cell-Permeable Macrocycles to Inhibit Protein-Protein Interactions*

2:30 pm Tomoyuki Bando (Ono) *Open Innovation Activities at Ono Pharmaceuticals*

2:45 pm BREAK – networking breakout rooms

Session IV - Chair: Michael Rogawski

3:45 pm David E. Olson* (Davis) *Psychedelics and Related Plasticity-Promoting Neurotherapeutics*

4:10 pm Daniela Kaufer (Berkeley) *Blood Brain Barrier as a Target for New Therapies in Neurological Disorders*

4:35 pm **Keynote – Barbara Slusher*** (Johns Hopkins, Director, Drug Discovery Program) *Combining Forces: Drug Discovery Partnerships in Action*

5:25 pm RECEPTION and posters
